

Ukrainian container generator

Who will supply generators to Ukraine?

The generators will be provided by UK commercial suppliers, who will provide their available stocks of generators to the effort. It is expected that suppliers will be able to deliver a large proportion of these generators to Ukraine via neighbouring countries.

How many generators are there in Ukraine?

This follows an initial 569 generators from 5 UK companies who have all supplied mobile units to help Ukraine. The new generators - enough to power the equivalent of around 8,000 additional homes - will be used for larger buildings such as hospitals and shelters following the brutal onslaught in Eastern Ukraine.

What are the best portable generators for contractors?

For frequent single job use, the iP and P generators are the perfect solution. These portable generators are focused on contractors for personal use, who require portable power at a moment's notice. More intensive use? If you need something for more intensive use, with higher power levels and extended features then the QEP is the solution for you.

What is a QEP portable generator?

The QEP portable generator is perfect for rental use or larger work sites where the power needs to be shared. Looking for rental solutions? The extended safety features of the QEP R minimize the risk of damage to the generator through misuse. Other safety features include an onboard differential circuit breaker.
