Myanmar's power sector will likely continue to experience significant challenges. To sustain the current level of power supply would require adding 300-500 MW every year until 2030. Scenario analysis on the power supply-demand gap illustrates that available generating capacity is projected to not meet the growing demand.

In today's world where continuous power supply is vital for the successful functioning of any organization, MMR's Uninterruptible Power Supply (UPS) helps your enterprise enjoy uninterrupted power supply in instances of power cuts, a complete outage or mains failure.
