

Uruguay energy storage vehicle sales price

Will electric vehicles grow in Uruguay in 2023?

The Automotive Trade Association of Uruguay (ACAU) expects growth in the sale of electric vehicles in Uruguay in 2023. This expectation is based on the doubling of successive commercialisations that Uruguay has had since 2019 in this market. Even in 2022, sales practically doubled, reaching more than a thousand registrations.

Does Uruguay have an EV market?

The transition is on! Uruguay is a small country, and, unsurprisingly, it has a very small car market, averaging some 60,000 units a year (between 4,000 and 6,000 a month). EV sales data is only available from 2023, and significant growth YoY can be seen even prior to June:

How big is the electric vehicles market in Uruguay?

The Electric Vehicles market in Uruguay is projected to grow by 10.22% (2024-2029) resulting in a market volume of US\$164.3m in 2029.

Is 2024 a good year for EV sales in Uruguay?

EV sales data is only available from 2023, and significant growth YoY can be seen even prior to June: The first five months of 2024, it seemed like this would be a reasonable year for Uruguay, with ~200% growth YoY and constant increases month on month, perhaps closing the year somewhere around 7% market share.

Does Uruguay have a PHEV market?

Furthermore, since Uruguay has no data for PHEVs, this is pure BEV market share, meaning our southern champion is now officially ahead of most European countries! The transition is on! Uruguay is a small country, and, unsurprisingly, it has a very small car market, averaging some 60,000 units a year (between 4,000 and 6,000 a month).

Are EVs a good investment in Uruguay?

Uruguay has a very comprehensive charging network and significant benefits from EVs. It also has a very competitive market where, according to local media, average EV prices went down by 11% between 2022 and 2023, making them more affordable for people.

For one, just like in Colombia, BYD is a very large player in Uruguay, with over 60% market share in electric utilitarian vehicles in 2021. It had 392 total sales in 2021, all of which were either ...

On July 2, 2023, BYD revealed remarkable sales results, with monthly sales soaring to 253,000 units in June. This marked an impressive 88.2% year-on-year increase, surpassing the milestone of selling 250,000 units monthly for the first time. For the first half of this year, BYD sold 1,255,600 new energy vehicles,
