Which solar water pump inverter is best?

Book design saves installation space. With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. This system will transform the solar energy from the sun to drive small power pumps and pump water for different kinds of applications.

What is a water pump inverter?

It is a completely new inverter for water pumps, and the first residential water pump inverter solution in the Middle East and Africa. With the inverter technology, it Regulates pump speed for longer lifetime, highest and reduced maintenance costs. Over Voltage, Over Current and Over Temperature protection.

What is veichi SI series solar water pump inverter?

VEICHI SI series solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, ground water lowering and etc.

What is a smart water pump inverter?

Winverter, the smart water pump inverter, is a high-profile product combining powerful performance and the latest technology in water and electricity saving residential appliances. It is a completely new inverter for water pumps, and the first residential water pump inverter solution in the Middle East and Africa.

Which solar water pumping controller is best?

As the solar water pumping system is eco-friendly and economical, VEICHI SI series solar pumping controllers of high MPPT efficiency have been widely used in many areas such as Africa, India, Middle East, Southeast Asia, South Asia, America and more areas.
