Design works of Yerevan Thermal Power Plant began in 1959 by "Teploelectroproject" Institute of Soviet Union. As a site for construction of the plant it was chosen the southern industrial area of Yerevan, which is one of the most power-consuming industrial centers of Armenia. Construction of Yerevan Thermal Power Plant began in 1961.

Can battery energy storage technology be applied to EV charging piles? In this paper, the battery energy storage technology is applied to the traditional EV (electric vehicle) charging piles to build a new EV charging pile with integrated charging, discharging, and storage; Multisim software is used to build an EV charging model in order to simulate the charge control guidance module.

Phase change materials (PCMs) can enhance the performance of energy systems by time shifting or reducing
