

Who is Zhongya International Srl?

Our knowledge in Aseptic and Ultraclean technology for the food industry makes us market leaders in Asia and present in more than 50 countries globally. Zhongya International srl is the EMEA (Europe, Middle East, Africa) business unit of Zhongya Group, established through a successful investment in Magex, a leading vending machine company in Italy.

How to choose a reliable power inverter supplier in China?

The Inverter is a standout piece in our Power Inverter collection. To verify the reliability of a power inverter supplier in China, research their industry experience, technical support capabilities, certifications, and customer reviews. Engage with a reputable manufacturer who conforms to industry standards for quality and safety.

What equipment does Zhongya use?

Meanwhile, Zhongya is equipped with international advanced production equipment, such as Mitsubishi laser cutting machine, Mitsubishi robot welding machine, AMADA bending machine, CNC punching machine, automatic U type shell production line, automatic metal box foaming line, to ensure the production of unmanned equipment with high standard.

What is Zhongya after-sales service?

With the complete and strong after-sales service system, Zhongya has built a comprehensive three-tier service team involving the customer service centre, the production base and R & D centre to respond the request from customers with the all-around, attentive and accurate service aiming at the shortest distance, fastest response and best quality.

Who makes Solax power inverters?

Recognized as a significant manufacturer of grid-connected inverters within China, SolaX Power's "SolaXPower" brand of photovoltaic inverters has garnered widespread acclaim, exported to 47 countries, and established partnerships with over 100 industry customers.

What is Zhongya manufacturing process & quality control system?

Zhongya has a set of efficient and rigorous manufacturing process and quality control system, we control every process from metal box cutting, forming, welding, spraying, foaming, assembling and testing strictly relying on the support of ERP system and MES system, etc.

Zhongya was selected as the first batch of "future factory" system cultivation enterprises in Hangzhou-Hangzhou Zhongya Machinery Co., Ltd.-Zhongya was selected as the first batch of "future factory" system cultivation enterprises in Hangzhou ... XTB series fully automatic high-speed intelligent

wrapping machine

This product is equipped with an RS485 communication interface, which can remotely monitor and manage the operation of the inverter. The products use more efficient Lithium iron phosphate battery as the power supply guarantee; The most widely used rack mounted chassis system is selected for exterior planning to support 4-9 parallel machines, ...

CONGRATULATIONS! ZHONGYA AWARDED 2020 SECOND CLASS PRIZE OF NATIONAL TECHNOLOGY INVENTIO- Hangzhou Zhongya Machinery Co., Ltd.- On the morning of 3rd November, the 2020 National Science and Technology Award Conference was held grandly in the Great Hall of the People in Beijing, capital of China. The project "Key Technology and ...

In addition to grid synchronization, the grid direct inverter performs other tasks, such as maximum power point tracking (MPPT), monitoring, protection and communication. Key inverter components Regardless of configuration, inverters today are built using high-voltage power electronic components. The key components of an inverter are:

Business Name Contact Person Job Title Main Product. Zhangjiagang City Huashun Machinery Mr. Richard Zhou CEO Pipe Bending Machine, Pipe C Shenzhen Fashion Electronics Co., Ltd. Mr. Kevin Huang CEO USB flash drive, Digital photo Jiekang Technology (Shenzhen) Co., Ltd. Ms. May Lee Sales Director Ultrasonic Cleaner, Mini Ultras Shaoxing County ...

Culture- Hangzhou Zhongya Machinery Co., Ltd. The product portfolio of Zhongya involves dozens types of equipment categorized into 11 sections, including the bottle blowing machine, the filling machine, and the end of line intelligent packaging line, which are widely applied in dairy, beverage, homecare, pharmaceuticals, edible oil, food, seasoning, spirits and other industries.

The product portfolio of Zhongya involves dozens types of equipment categorized into 11 sections, including the bottle blowing machine, the filling machine, and the end of line intelligent packaging line, which are widely applied in dairy, beverage, homecare, pharmaceuticals, edible oil, food, seasoning, spirits and other industries.

ZHEJIANG XINCHANG ZHONGYA INDUSTRY CO., LTD is a professional tyre manufacturer, The company has a large modernization factory and fitted with the worlds advanced highly sophisticated production and inspection equipment, the high-tech research center and in command of the Nano kernel technology, the company has passed the ISO9001 international ...

Reinforcing Sales Techniques with Specialized Skills and Enhancing Market Influences with Quality Service Training for Zhongya Europe Company Team Held Grandly- Hangzhou Zhongya Machinery Co., Ltd.- The business training for Zhongya Europe Company was successfully held at the headquarters in Hangzhou from

Zhongya high-end inverter factory direct sales

July 25th to August 02nd, the Company President Allen ...

The three-phase inverter utilizes power electronics, including MOSFETs, IGBTs, or other high-power solid-state switches, to achieve high-frequency switching between the direct current and the three-phase alternating current. This type of inverter is suitable for large commercial and industrial solar power systems.

Hangzhou Zhongya Machinery Co., Ltd (SINO-AUSTRALIA joint venture) is a key high and new-tech enterprise at national level and a leading packaging enterprise in China. Founded in 1992 and located in Zhongya Industrial Park which covering nearly 80,000 square meters by the bank of West Lake in Hangzhou, we own building facilities as Modern ...
